

Note from the Australia and New Zealand

Genetic Services

Genetic services in Australia and New Zealand are covered under specialty care and are usually provided free of charge. Genetics services are based in the larger cities but there are some services in regional locations. The Human Genetics Society of Australasia (HGSA) <http://www.hgsa.org.au> /and the subsidiary group Australian Society of Genetic Counsellors (ASGC <https://www.hgsa.org.au/asgc> list genetic service providers.
